

CLINICAL NEUROPSYCHOLOGY POST DOCTORAL ASSOCIATE  
OHIO STATE UNIVERSITY

[The Clinical Neuroscience Lab](#), in the Department of Psychology, within the College of Arts and Sciences, seeks a Clinical Post-Doctoral candidate to join our team. The College of Arts and Sciences is the largest college and the academic heart of the university. The College hosts 81 majors. With 38 departments, 20+ world-class research centers, and more than 2,000 faculty and staff members, students have the unique opportunity to study with the best artists, scholars, and scientists in their field. The College values diversity and offers a supportive, open, and inclusive community.

The Clinical Neuroscience Lab is directed by Dr. Ruchika Prakash and the laboratory is funded by the National Institute of Health and the National Multiple Sclerosis Society. The postdoctoral candidate will be involved 50% in clinical activities, including administering neuropsychological assessments to individuals with MS, healthy older adults, and to MCI patients. Additional clinical activities can include facilitation of mindfulness-based stress reduction, cognitive training, and psychoeducation programs to help improve neuropsychological deficits. The successful candidate will also be involved in providing supervision to graduate students in clinical psychology.

The postdoctoral candidate will spend 50% of their time being involved in research examining the effects of various lifestyle interventions, like mindfulness meditation and exercise training, on neuromarkers of sustained attention and emotion regulation. Using theoretically motivated behavioral and neural measures, our goal is to rigorously examine the effect of engaging in such interventions for attentional control, emotion regulation, and everyday cognition in older adults.

Successful candidates must have earned a doctorate in Psychology from an APA-approved clinical psychology program. Additionally, the successful candidate should have experience in clinical assessment, individual- and group-based therapy, and report writing. Commitment to graduate supervision plus an interest in pursuing grants from federal agencies and private foundations is expected. Position available for one year with additional years dependent on satisfactory performance and availability of funding.

If you are interested in being considered for the position, review the full job description and qualifications and apply online at <https://www.jobatosu.com>, under job listing #443687 and submit a CV, a brief statement of research interests, the expected date of availability, and the names and contact of three references.

If you have questions about the position or the lab, please contact Dr. Ruchika Prakash at [prakash.30@osu.edu](mailto:prakash.30@osu.edu)
